

Track 1: Back to Jesus

Get back, get back to Jesus
Get back, get back to Jesus
Get back, get back to Jesus again

Get up on your feet, do you hear that sound?
Get down on the street, leave the plough in the ground

Leave your tower of stone, leave your boat on the shore
Throw away your gun, you won't need it anymore

Walk in the light, take your place in the line
There's a fire so bright, in the darkness to shine

Track 2: Stranger on the run

I'm a stranger on the run
Can't remember my own name
I don't know where I come from
All these faces look the same

I can't tell the day from night
I don't know what's yours or mine
I can't tell the wrong from right
I am lost in space and time

I can't tell the dusk from dawn
Black and white look grey to me
All my colours fade away
That's not how it was meant to be

I can't tell the heart from the head
I can't tell lies from the truth
Don't know if I'm alive or dead
All I can do is sing the blues

Hear me, hear me howling at the moon
All my life I have been running
Save me, save me, someone save me soon
I can feel the reaper coming

The face in the mirror had tears in his eyes
But these eyes didn't look like mine
They burned through me like flaming swords
Calling out for me from the other side of the line

Track 3: There's got to be another way out

Hey friend, do you still remember
How, years ago, you got it started
No walls too high, no road too narrow
Somehow the spirit has departed

So now you're standing on the coast line
From far away I saw you cry
Just unbelievable the distance
You wouldn't hear me if I tried

So stare on out to the horizon
For distant ship smoke from the west
The sun goes down behind the islands
Where once we laid our souls to rest

The trees have lost their withered leaves
The summer birds are heading south
An empty boat is washed ashore
The fire's slowly burning out

When I woke up I had a feeling
I dreamed a letter carved in stone
I seemed to run in no direction
I dreamed a palace made of bone

Through walls of glass I saw your face
I saw the space behind your eyes
The ghosts of all our buried dreams
come back to haunt our sleepless nights

There's got to be another way out
There's got to be redemption time

There's got to be another way out
There's got to be a turn of the tide

Track 4: Kyrie

From this deserted valley of my soul
Once again I am calling to you
Sometimes I feel so unsure
Sometimes I'm losing control

You have set my life on a foundation
You have built my life upon a rock
You gave me the heart for this city
You gave me the heart for this nation

Lead my feet to the temple on the mountain
Let me sit at the table of the Lord
Let me drink from the stream of living water
Let my heart be healed by the fountain

Hear my cry, hear my cry
Hear my cry, Lord have mercy

Track 5: Saved me again

When I was running away from you
You were waiting for me
When I was locked in a prison cell
You wanted to set me free

You don't wash away the memories
But you wash away the guilt and shame
You broke the chains that I was bound in
And you gave me the strength to live again

You looked upon me once again
You reached out your hands and called me by my name

You have saved me, saved me again
You have saved me, saved me again

Track 6: I'm not afraid

I'm not afraid, I'm not afraid
You are my strength and my shield
I'm not afraid

And when the night is coming down
On this lonesome town
You are my strength and my shield

You are my strength, you are my shield
You are my strength and my shield
I'm not afraid

I will defeat my enemy
With power and authority
You are my strength and my shield

Track 7: I'll be waiting

I got your message, you left it on the answering machine
I can hear you and I wonder if it's real or just a dream

And I am missing you tonight
I'd like to kiss you, hold you tight
I feel myself falling in love
And I pray to the Lord above

Teach me patience, I don't ever want to lose what I found
I'll be waiting, I'll be standing here without a sound

One day soon we're gonna shine, we're gonna rise
One day soon we'll build a castle in the skies
One day soon we're gonna rise, we're gonna shine
One day soon you will be mine

Track 8: Creator and completer

There is a love that I desire
And I know there is a place I want to be
Lord, I want to be on fire
Pull me closer to your heart and set me free

You are creator and completer
Your spirit's here while you rule from high above
You are my father and my saviour
You called my name and saved my life with your love

Your love is warmer than the sun,
Your love is higher than the sky
I want to give to you my life

Track 9: Lost and found

How could I live without you
There is no other way but you
Where would I go without you
There is no other way but you

You're holy and mighty, faithful and true
I was lost, now you found me, I'll live for you

I thank you 'cos you died for me
I love you 'cos you died for me
I praise you 'cos you died for me, my Jesus

Track 10: Alpha and Omega

You have created the light
You have created the earth
You have created the life
You have created the world

You set your children free
You take our sins away
You guide us through the night
Your spirit leads the way

You will return in glory
Then every knee will bow
A new Jerusalem will come
And you will reign in power

You are Alpha and Omega
You are the eternal God

Track 11: All creation

Your name shall be blessed by every nation
Your name shall be blessed by all creation

From the north to the south, from the east to the west
Every day, every night shall your name be blessed
Your name shall be blessed by every nation

Your word shall be heard in every nation
Your word shall be heard by all creation

From now on till the end of the world
Every day, every night shall your word be heard
Your word shall be heard in every nation

Salvation is freely given by the one
And there is no condemnation for those living under the son

Track 12: Hope in eternity

Darkness all around us, but we have no fear
You are the eternal God, and you are near
It's cold in the city, Lord, you keep our hearts warm
From now until forever we are safe in the eye of the storm

Flesh and blood and bones will not last forever
And at the end of time we will still be together
We will stand before your throne and we will bring you praise
We will sing with the angels and we will see you face to face

Lord, you are our hope in eternity
Lord, you are our hope in eternity

Track 13: Can't live without you anymore

I will depend upon your mighty presence,
I will be alone no more

I will depend upon your healing power,
You know I've been hurt before

I will depend upon your loving care,
You won't let me go astray

I will depend upon your holy blood,
All my sins are washed away

I can't live without you anymore
I can't live without you anymore

Track 14: Good enough

I tried to live holy, I tried to live clean
I tried to walk in your ways
I'm weak but your power is strong in me
Now I'm good enough because of your grace

You died at the cross and carried my sins
Your blood and Your pain was for me
You rose up again and you set me free
Now I'm good enough because of your grace

I sing holy, holy, holy to you, holy to you my God
I sing holy, holy, holy to you, holy to you my God

I sing glory, glory, glory to you, glory to you my God
I sing glory, glory, glory to you, glory to you my God

I sing worship, worship, worship to you
Worship to you my God
I sing worship, worship, worship to you
Worship to you my God
