

In the name of Jesus...we rock!!!

Listen to the sound of rolling thunder
Listen to the pounding of the beat
Listen to the drums and turn in wonder
Guitars screaming out there on the street

Raise your fist and shout out "Halleluja"
Raise your fist and hail the king of kings
Raise your fist and shout out "Hosianna"
We're gonna rock, gonna dance and sing

In the name of Jesus...we rock!!!

Tougher than hell (Alpha and Omega III)

You have created the light
You have created the earth
You have created the life
You have created the world
You called the kings and the prophets
You gave them strength from above

You set your children free
You take our sins away
You guide us through the night
Your spirit leads the way
When I feel lost and lonely
You give me strength from above

You will return in glory
Then very knee will bow
A new Jerusalem will come
And you will reign in power
To the warriors of Armageddon
You will give strength from above
You are Alpha and Omega
You are the eternal God of love

Tougher than hell
Stronger than death

Snakeskin

Listen up devil I've had enough
I won't take no more of your evil stuff *
I belong to Jesus, he set me free
And you're in deep deep trouble
If you mess with me

The number you chose was six sixty six
But I ain't fallin to your dirty tricks
I dialed seven, seven and seven
And I surely got saved
By power from heaven

Serpent, I see you crawl
Serpent, I see you crawl

You may be king of the world
But the Lord is my boss
And your head got crushed
By the man from the cross

I'm wearing snakeskin
You ain't gonna fool me
Snakeskin, I can see you crawl
Snakeskin, you ain't gonna fool me
Snakeskin, I ain't gonna fall

Cities burning

Sometimes I can feel the world turn
Sometimes I can see the cities burn
Sometimes I think we will never learn

Sometimes I can see the river flow
Sometimes I can feel the northwind blow
Sometimes I can feel the anger grow

Sometimes I see the skyscrapers fall
Sometimes I can hear the ravens call
Sometimes I see the writing on the wall

Sometimes I can see the beast asleep
Sometimes I see the forsaken creep
Sometimes I feel the knife cut hard and deep

Sometimes I can see the missiles fly
Sometimes I can see the soldiers die
Sometimes I can hear the children cry

Sometimes I watch as the crack is sold
Sometimes I can feel the hearts grow cold
Sometimes I see dealers count their gold

Sometimes I can see the banshees play
Sometimes I can hear believers pray
Sometimes I see God turn his face away

Sometimes I hear Nazis shouting "Heil"
Sometimes I can see the devil smile
Sometimes I have to close my eyes 4 a while

Sometimes, Lord, darkness is rising
Down here and all our lives are on the line
Sometimes, Lord, I believe the end is near
And we're running out of time...

A touch of sanity

I felt a touch of sanity today
It was a feather falling on my shoulder
Blown away by the wind
Blown away
And suddenly I felt a little older

Can't help the touch of sanity today
When all that's left is sadness and self-pity
Blown away by the wind
Blown away
Still unreleased I'm wandrin' through the city

Lost a touch of sanity today
On a junkyard in a dead end street in twilight
Blown away by the wind
Blown away
Where is my life, where is my birthright

I need a touch of sanity today
To overcome the darkness of delusion
Blown away by the wind
Blown away
A glimpse of heaven in my mind's confusion

Can I find a touch of sanity
Can I find a touch of sanity
Lord, if I could find a touch of sanity
I'd keep it in my heart forever

Once there was a touch of sanity
Once there was a touch of sanity
Lord, if I could find a touch of sanity
In eternity we could be together

Beautiful soul

Take me home to your place
I would stay if you let me
I've been wanderin' in the dark
I see the light since you met me

Let me take you home to me
You may stay if you want to
Have I known you all my life?
You give me something to hold on to

Take my ring and take my hand
We'll ride the road to where it leads us
I will love you till the end
With all the strength I get from Jesus

Every time see that look in your face
I'm safely covered in your heart's embrace

You beautiful soul, you beautiful soul
You got a most beautiful soul

And in the darkest night
I'll be there next to you

To hold you close to me
Protect and comfort you

And when the morning comes
I will be waiting there
For you my bride and joy
With all my love to share

Until the angels sing
I want to hold your hand
Will you be there, my love
To help me understand

Peace in my heart

I have been walking for quite some time
I have been running, I wasted my time
My head is spinning, have I lost my track
It's hard to see, I don't know where I'm at

I know I'm walking no easy way
But when I calm down and listen I hear u say
Come in my arms, I hold u, I fill u up with life
My love has healing power and eternal life

When I'm with you, when I see your face
I get peace in my heart, peace in my mind
You will carry me through

Is it you?

I never knew words are so hard to find
Do I know what's on my mind
My feelings for you are not easy to say
And I wish I knew what is gonna be gonna be

All I want is to know you
Am I the one that you're longing for
I don't know much about you
But in my mind you are not far away

I haven't seen you in two days
But in my mind I still see your face
You are a wonderful woman
You are much more than beautiful

Every time I am close to you
I feel like coming home
And I wonder is it true, and I wonder is it you

* Dedicated to Regina Wolfermann

No more lies

I heard you teach about the price of faith
About conditions of God's grace
How I must act, how I must look like, brother
I have to tell you I don't bother

Don't tell me you know who'll go to heaven
Don't tell me who will go to hell
That I might have to earn my place up there
Man, I'd rather stay alive and well

To speak in tongues is to be saved at all
Without a rosary you'll fall
The devil lives in films and comic books
And heavy metal gets you hooked

Repeated baptisms can save believers
The more we share the bread and wine
With beer'n cigarettes u can't make it either
And all your lives are on the line

Don't try to tell me what I have to do
I know what Jesus wants me to
Don't tell me how I have to talk and dress
I know to whom I must confess

Don't give me no more laws'n rules to follow
Don't tell me how I have to live
Don't tell me that my life with God is hollow
Don't tell me Jesus won't forgive

Cause that's a lie...
Don't tell me no more f****ing lies!
Tell me nothing but the truth

Murder

Don't ask me to take the blame
Walking with the mark of Cain
Voices from the underground
Whispered, wailing, whining sounds

Don't you dare to speak my name
Dancing with the sons of Cain
Red and black the shadows fall
Bloodstains on the schoolhouse wall

Don't you tell me who's insane
Fall under the curse of Cain
Wounded heart and iron wheel
Who knows how the demons feel

Don't you feel the fire's flame
Who deserves the fate of Cain
I have felt the devil's touch
Who can really take that much

Call it murder, call it fate
Is there remission, is it too late
Call it justice, call it hate
For eternity I wait... call it murder!

Weariness (Knight song II)

All those wars I've fought
All those songs I've sung
All those tears I've cried
I'm returning to your court
Back where I belong
In the presence of your light

I've been marching on and on
Fighting in the fields
Of the lonely and the lost
After all is said and done
I am carrying my shield
To the shadow of your cross

A dream I tried to share
A truth I tried to say
A word I tried to write
You were standing there
You have seen me fail
Every time I've tried

I don't want to fight anymore
But I will... if I have to

The return of the prodigal son

One hundred miles, one hundred skies
One hundred smiles, one hundred lies
One hundred lives, one hundred dreams
One hundred knives, one hundred screams

Can I shake the dust from my wounded feet
Cos' I know I must follow mercy street

Can I leave this ground
Riding on the gospel train
Going homeward bound
Will you know my name

Can you take that much
Can you count my scars
Did I lose your touch
Did you follow me this far

One hundred percent of nothing is all I got

Lord, I'm coming home

The king's wedding (Knight song III)

The king is coming from the mountain
He's coming down in power and might
The king is coming to his kingdom
He's coming back to court his bride

The king is gonna call his vassals
He's gonna honour all his knights
He will ennoble all his warriors
For every battle they did fight

All trumpets blow, all drums are pounding
All singers hail the Lord of Lords
All knees bow at the royal wedding
All warriors raising up their swords

Shout of joy

You lift me to the mountaintop
Raise me up and put my feet
On a solid rock with a shout of joy

High above the world I stand
Shout out loud and lift my hands
To heaven up high under clear blue sky

With a shout of joy...

...about you, creator
...you are our saviour
...you're the king of kings
...you let us sing

...cos' you have saved me
...you won't forsake me
...you're the god of love
...you reign from above

...you died for me
...you have set me free
...you rose up again
...you call me your friend

...you're the conquering lion
...we'll be living in Zion
...your word cuts like a knife
...you are alive

Halleluja, Halleluja, Halleluja, Halleluja

To call you Daddy

How can I measure the love you feel for me
How can I imagine what you've done
How can I count the things you gave to me
All those years
What can I give you in return?

You're the king on a throne of gold
And I'm so glad I can call you daddy
You're the king on a throne of gold
But you called me by my name

...and made me your child
...made me your child
...made me your child
...made me your child

Akkorde: e/D – G/D/C

Light up my life

Light up my life
I've been in darkness for too long
Light up my life and make me see
Light up my life and set me free

Open up the door, open up the door
Lord, I've seen your light before
I want to know you more and more

Anything for you

I could walk through the desert
I could climb the mountain
I could run through the jungle
I could swim the sea
I could live in the country
I could die in the city
I could face the devil
Where you are I want to be

I would go anywhere for you
Anywhere for you
I would go anywhere for you
Do it all for you

I could sing and shout loud
I could sit and pray
I could dance all night long
Just to give you praise
I could eat with the rich
I could serve the poor
I could love all people
Like never before

I would do anything for you
Anything for you
I would do anything for you
Do it all for you
